

EX-GOVERNOR BROWN.
Gov. Brown retires to private citizenship in great good favor, says the C. J.

He has made an able, conscientious and resolute chief executive. A master of the law, he has directed his administration with a firmness and vigor that has won the respect of his fellow citizens.

THE BEE,
Erlington, Ky.
THURSDAY, DECEMBER 19, 1895.

HOPKINS THE BANNER COUNTY.

The output of coal in Hopkins county is nearly one-third the total output for the entire State.

In 1894, the output of the State was 2,957,195 tons, bituminous and cannel coal. Hopkins county's output was 811,759 tons, all bituminous. This is a gain over the product of 1893, 60,684 tons.

The total number of employees in Hopkins county in 1894, was 1,954. Animals employed 280. Total number of accidents occurring in the State, 67. Hopkins had only one fatality.

Total coke produced in Kentucky during 1894, was 27,715 tons. Of this, 26,008 tons were made at Erlington.

A CORRECTION.
In our issue of June 23d we were glad to announce that our friends of the Providence Coal Co. had agreed to restore the wages of their miners to the district price.

This announcement was made by us on the assurance of the President of this company that the restoration would be made. Nearly six months after this announcement, the President of the Providence Coal Company, tells us that the advance was not made as promised.

The directors declining to order it, and that the miners of this company are still working at the reduced rate. The President further states that the "boys" at the mine cut the mining price, and as only the directors can advance it, he is helpless in the matter.

At the time of the issue of June 23d, much uneasiness was manifested by the miners in this district because of this reduction in the price of mining by the Providence Coal Company. It seemed to cause a reduction in the whole district and the miners naturally were not pleased. The Bee hastened to assure them of the agreed restoration of wages—even sent messengers to various mines to tell the good news—and now, at this late day, has to confess it was deceived.

We believe in fair wages and know that the price of coal in this district entitles the miner to the winter price of 75 cents per ton which all operators in this district are paying except the Providence Coal Co.

We also believe that every man in this great country is entitled to make his own contracts, and that the Providence Coal Company has a right to work for 50 cents per ton, or 10 cents per ton, it is his business only.

While we cannot just see the logic of the "boys" putting the price of mining down and not being able to put it up again, if the President so orders, we make our humble apology to those who were deceived by our announcement. It was not our fault this time. It will be our fault if we are deceived again.

NO FIREWORKS.
The good people of Erlington will remember our city law in the matter of fire-works during Christmas. Our law prohibits the use of fire-works within the city limits. This is an old law, but we call attention to it for the reason that there may be some persons lately coming among us who are unacquainted with this law. Many fires, most disastrous, originate in the use of fire-works, and ours is a wise provision. Moreover, can crackers and hullabaloo be any more method of celebrating the birth of our Lord. Let us remember that in the true Christmas spirit of peace and of praise.

AS TO DUCKS.

The doctors will concede that Mr. Cleveland has a great many quacks—Chicago Tribune (Rep.)

History will say of Cleveland that he hunted more ducks and distinguished more Democrats than any other President—St. Louis Globe Democrat (Rep.)

It may be yet necessary to pass a net spider game law in order to keep the President of this great Republic at his proper place.—N. Y. Press (Rep.)

A suspicion is being voiced that if Ambassador Bayard's picture of the rigorous demands of the position of President were absolutely true the Chief Executive would not have any time to go duck hunting.—Washington Star (Ind.)

It will be highly interesting to have Mr. Cleveland's countrymen know that already the President has brought down twenty-six ducks and three swans. The wild life in Kentucky and we need him. Through his efforts for the Democratic party he succeeded in turning Owensboro into his boasted 400 majority into the hands of the Republicans. He also made us do with wiping out the 1,000 Democratic majority in the Second Congressional District than any one else and while the Republican majority of 461 is large enough, yet we would rather it was 3,000 and with the help of our neighbor, one more campaign with his "free silver" and "free trade" ideas it can easily be given. And we think our neighbor had something to do with the Railroad Commissioner's race, and that the miners of this majority to start with, we succeeded in getting only about 200 Republican majority; so don't remain away very long, "neighbor," we need you in our business, "see?"—Owensboro Tribune.

KENTUCKY'S FIRST ABORTION-TUM.

The Bee notices with gratification the announcement in the morning Post, that Louisville will soon have an Abortion-Tum. So far, Erlington is the only city in the State so favored, in which all the native trees and shrubs of the State are growing, all properly marked with numbers and scientific names. The Earlington Abortion-Tum, when originally 25 acres, which, upon 60 acres, contained, contained over 100 varieties of native trees. The St. Bernard Coal Co. for three years past has been cutting down, and the park now contains twenty-seven varieties of Oaks, seven of Hickories, eight of Magnolias, five of Ash, twelve of Willows, seven of Maple, four of Elm, four of Birch, white Pears, Tulip, Chestnut, Kentucky Coffee-tree, Linden, Beech, Dogwood, Hackberry, Cottonwood, Hornbeam, Hop-tree, Leatherwood, Mulberry, Sycamore, Spicewood, Cedar, Holly, Hercules Club, Cypress, Gum, Stuartia, Sandalwood, Catalpa, Frickly Ash, etc.

We welcome Louisville into the realm of scientific tree culture, but it will be a long time ere she can rival Erlington in tall and beautiful oaks and wonderful variety of forest trees.

DIPHTHERIA.
A Chicago dispatch of Dec. 11, says the deaths of Dr. Gordon C. Rockwell and Miss Hubbard, his 17-year-old patient, both of Hyde Park, were reported to the health department. Miss Hubbard was taken with diphtheria on November 23, but Rockwell persistently declined to use the anti-toxine treatment and she died the fifth day. A nurse employed in the Hubbard family also contracted the disease and died, and was soon followed by Rockwell. According to the records of the health department, not a case of diphtheria which has received the anti-toxine treatment within the first 24 hours has been lost, and 98 per cent of the patients inoculated within 48 hours after the attack have recovered.

The Bee has upon two or three occasions published the excellent results obtained by Erlington physicians in the use of anti-toxine during the diphtheria epidemic of last September. The epidemic was well handled and the consequence of short duration, but an occasional case has now and then appeared here and in the surrounding towns and country. In anticipation of this danger our health officers and physicians and the St. Bernard Drug Store have been alert and an available supply of anti-toxine has been kept at all times. This supply has been of use not only in cases here but to towns quite reached by rail on both sides of us, from Crofton, Ky., to Terre Haute, Ind., and the good done may not be estimated.

FARMERS SWINDLED

The Wilson Bill swindles the "Robber Barons" and is the Farmers' Bill.

While the free trade papers have been drawing particular attention to an increase of the foreign trade of the United States, they have been equally reticent about the subject of the tariff. As the tariff is the life of the nation, it is not surprising that it should be the subject of so much discussion. In fact, the free trade papers have been so reticent about the subject of the tariff, that they have been unable to give the farmers a fair and accurate picture of the situation. The Wilson Bill, which is the Farmers' Bill, is a bill that is designed to protect the farmers from the "Robber Barons" and to give them a fair and accurate picture of the situation. The Wilson Bill is a bill that is designed to protect the farmers from the "Robber Barons" and to give them a fair and accurate picture of the situation. The Wilson Bill is a bill that is designed to protect the farmers from the "Robber Barons" and to give them a fair and accurate picture of the situation.
